PROFILE

Laravel specialist focused on backend process automation and optimization. Experienced in developing custom systems that reduced operating times by 40% through the implementation of clean code principles (DRY, KISS, SOLID), design patterns, and efficient SQL queries. My goal is to apply my skills to solve complex technical challenges in ambitious projects.

PROFESSIONAL EXPERIENCIE

02/2024	**PHP Laravel Developer (Freelance)** *Private Company* Systems consulting and code optimization for private clients. My responsibilities included refactoring and improving code for specific functionalities, and optimizing SQL queries to improve application efficiency and performance.	Ciudad Guayana, Venezuela
04/2019 – 01/2024	**Fullstack Developer** *Plaza Meru hotel* I developed a custom application from scratch as a comprehensive solution for managing and controlling employee information using the PHP Laravel 7+ Framework, enabling a 14% improvement in information processing and speed of results.	Ciudad Guayana, Venezuela
01/2011 – 04/2019	**Systems Operator II** *Banco Caroni, Banco Universal* I was part of the work team responsible for supporting banking operations, monitoring the activity status of the Core Banking systems, and performing the activities related to my position. I managed to reduce response times for users by 8% through the use of the default applications inherent to my position.	Ciudad Guayana, Venezuela
